V. Reasoned statement under Article 35(2) with regard to novelty, inventive step or industrial applicability; citations and explanations supporting such statement

1. Statement

Novelty (N)	Claims		YES
	Claims	1-8	NO
Inventive step (IS)	Claims		YES
	Claims	1-8	NO
Industrial applicability (IA)	Claims	1-8	YES
	Claims		NO

2. Citations and explanations (Rule 70.7)

Reference is made to the following documents:

D1: JP 11-95930(SHARP CORP.)

The inventions as defined in claims 1-8 describe the input system having with a plurality of pointers includes one or more activation selection portions, a generation selection portion, a position detecting portion and a driver, which is capable of reducing a moving distance of a mouse and improving operating efficiency.

Document D1 discloses a device and method for controlling pointer movement. The moving amount and direction of a pointing device are detected by a pointer moving vector detecting module, and the moving vector of the pointer is detected. The operation of a 2nd pointer control button is detected by a 2nd pointer operation detecting module. The movement of the 1st pointer and the appearance and movement of the 2nd pointer are controlled from this detected information by a pointer movement control module. The pointer calculated by the pointer movement control module is displayed by a pointer display module.

The present application does not satisfy the criteria set forth in Article 33(2) and (3) PCT because the subject matter of claims 1-8 is not new in respect of prior art as defined in the regulations (Rule 64(1)-(3) PCT and/or does not involve an inventive step (Rule 65(1)(2) PCT). Thus the subject matter of claims 1-8 is neither novel nor inventive.

Claims 1-8 are considered to be industrially applicable.
